JMD'S MESSAGE

Dear Friends,

Being in the business of tiles, over the years Somany has selected to increase the proportion of its retail presence across the geography of India to be available where people want to buy. The sole purpose of embarking on providing the consumer a superior product mix in designs, sizes and colours is meant for overturning the established tenets of shopping for tiles by reaching out as close as possible to the consumers.

The franchisee model aims to be a win-win situation for the company as well as the esteemed partners as this huge distribution network has helped to build the brand as a progressively international brand.

Hence, I invite you to be a part of the company's journey towards an exciting phase of expansion and growth through mutual integration.

Regards,
Abhishek Somany
JMD – Somany Ceramics Ltd.
